Experience

IAGAMI TECHNOLOGIES   Mar 2024 - Sep 2024
Salesforce Developer Intern   *On-Site*

- During my internship as a Salesforce Developer at Iagami Technologies, I worked on an invoice management project that utilized a wide range of **Salesforce Technologies.**
- I implemented **Flows, Apex, and Lightning Web Components (LWC)** to create a **Bulk Import** feature for leads. Additionally, I developed a Document Download functionality for contacts and set up **Email Generation.**
- My responsibilities included designing and creating **custom objects**, custom fields, picklists, and page layouts to suit specific business requirements. I established both **master-detail and lookup relationships** between objects and implemented validation rules to ensure data integrity.
- The project also involved setting up workflow and approval processes to streamline business operations. I created **Visualforce pages** and dashboards to enhance data visualization and reporting capabilities.
- Furthermore, I gained valuable experience in user management, including creating roles and managing users to maintain proper access controls and security. As part of the project, I developed a lead form in **Experience Cloud** using **LWC**, incorporating pagination for each field to enhance user experience.

Projects

Pokemon API | *Spring Boot, PostgreSQL, Postman API*   **Aug 2023**

- Make API that performs CRUD.
- Implemented database connectivity using **PostgreSQL**.
- Also implemented **REST** Operations.
- Used **Postman API** tool to create and send API requests.

The Car Information System | *Core Java, JFrame, JDBC, SQL*   **Oct 2023**

- This is a mini-project with CRUD operations using **MySQL** for database and **JFrame** Library for UI.
- Desktop based Application Getting car information from the owner.
- It has three operations **Save**,**Edit**,**Delete** all control by user and show its data in the table.

Online Exhibition | *Spring Boot, Core Java, SQL*   **Oct 2023**

- Contributed to the open-source project **Online Exhibition**, specializing in REST API development.
- Key Contributions:
  - Collaborated on the design and implementation of RESTful APIs.
  - Resolved issues and optimized API endpoints for improved performance.

Technical Skills

Languages: Java, C, Apex, HTML, CSS, Java Script, SOQL, SOSL, LWC
Developer Tools: VS Code, Intelli J, Git,Postman Api
Technologies/Frameworks: JDBC, Spring Boot, Git, SQL, Hibernate, Spring MVC, Thymeleaf, Visualforce

Certification / Extracurricular

- A Technical Writer at **Hashnode.com**. where I *write* tech articles related to what I learn and do daily.
- Completed a Core Java Course in **Internshala Trainings**.
- Top Performer in Internshala Trainings Java Certification Course.

Education

Thanthai Periyar Government Institute Of Technology   **2021 − 2023**
Master Of Computer Application   *Vellore, Tamil Nadu*

Subbalakshmi Lakshmipathy College of Science   **2018 − 2021**
Bachelor of Scienc in Computer Networking   *Madurai, Tamil Nadu*
